

## CHAMPIONING PROFESSIONAL ACCREDITATION

# Trust me, you won't go wrong with a Kasneb qualification

By FCPA Prof. Nicholas K. Letting, PhD,  
EBS, HSC

For the last 55 years, Kasneb has successfully transformed students into great professionals. It has provided all-round competencies that have enabled generations of professionals to thrive in the marketplace.

Kasneb is the institution of choice for many professionals because it offers an array of qualifications. Currently, it offers two post-professional qualifications, six professional qualifications, four diploma qualifications, and one certificate qualification.

Qualifications in accountancy include the Certified Public Accountants (CPA), the Accounting Technicians Diploma (ATD), and the Certificate in Accounting and Management Skills (CAMS). Qualifications in Finance include the Certified Forensic Fraud Examiner (CFFE), the Certified Investment and Financial Analysts (CIFA), the Certified Credit Professionals (CCP), and the newly launched Certified Public Finance Manager (CPFM).

Qualification in governance and management is the Certified Secretaries (CS). Qualifications in quality management include Certified Quality Professional (CQP) and the Diploma in Quality Management (DQM). Qualifications in information technology and related disciplines are the Certified Information Systems Solution Expert (CISSE), Diploma in Computer Networks and System Administration (DCNSA), and a Diploma in Data Management and Analytics (DDMA).

These qualifications are recognised globally and are benchmarked with international standards and best practice.

We have vast learning resources

in our study books, revision kits, past papers, accessed through the e-library. We also give our learners the flexibility to choose between online and physical classes for two reasons. First, we are in the digital age, which has changed how we live and work. Now we can communicate and share information quickly from anywhere in the world. Therefore, our learners can now study without the geographical limitations. Secondly, we recognise that the current generation of learners are digital natives who gravitate towards the digital space, and as an institution, we have made provisions to meet them where they are.

It is also in the same spirit of leveraging technology that we have gradually automated our exams to Computer Based Examinations. In moving from the traditional pen-and-paper examinations, we have established ourselves as leaders in enhancing the 21st century education experience.

Kasneb's main agenda is to empower professionals. In line with the Sustainable Development Goal-4 of ensuring inclusive and equitable quality education and promoting

lifelong opportunities for all, Kasneb Foundation was established to provide financial assistance to needy students wishing to pursue Kasneb qualifications. The Foundation partnered with the Higher Education Loans Board (HELB) to set up the Kasneb Foundation Loan and Bursary Scheme. The scheme offers financing for tuition and examination fees to students pursuing Kasneb qualifications in the various accredited universities, colleges, and other training institutions in Kenya. Since its inception, more than 2,165 beneficiaries from 45 counties in Kenya have successfully benefitted from the initiative. We look forward to more beneficiaries.

Kasneb has always been the institution of choice for KCSE graduates because it prepares learners to be market ready by developing in them industry-relevant skills and knowledge. In 2021, Kasneb revised its syllabus to better align with current market demands.

The 21st century workplace is dynamic and rapidly evolving. It requires proper preparation for a professional to succeed. At Kasneb, we offer learners opportunities to acquire

practical, on-the-job skills through internships and industrial attachments. In addition, Kasneb gives KCSE candidates who did not qualify for direct entry to university, an opportunity to remain competitive through diploma and certificate qualifications, and use these as avenues to pursue higher certifications.

Kasneb also encourages learners to venture into entrepreneurship and create employment opportunities for others.

Kasneb's vision to create globally recognised and empowered business professionals is more than a statement. It is a calling. For over 55 years, we have proven ourselves to be a reputable institution of learning that is relevant, adaptable to changing landscapes, and forward-thinking. Numerous professionals in governmental, non-governmental, and private sectors can trace their career roots to Kasneb. We look forward to continuing the legacy, and I urge the 2024 KCSE graduates to choose this great institution to accelerate their career growth.

**Prof. Nicholas K. Letting** is Secretary/Chief Executive Officer - Kasneb
